

Teacher Workshop

September
25 & 26
2020

No
cost!

Virtual
instruction

Hands-on
learning

- Topics support NGSS & are aligned with NASA missions
- Supplies for hands-on activities will be mailed
- Learn STEM activities to engage middle & high school -aged students during remote learning
- Projects are relevant to the next NESSP challenge — or can supplement your existing course, scout program, &c.

Prepare for the next NESSP challenge! Participants may be eligible for STEM clock hours (ID, OR, MT, WA).

Details

- Register by September 10
